SHANNON PUT COMMITTEE ON METTLE

Refused to Answer Questions
and Was Virtually Un-
der Arrest

STATE PRINTER'S DEF-
ON COUNSEL'S ADVICE

Was Adjudged in Contempt
After Stormy Scene in
Committee Room

SAN FRANCISCO, Sept. 27.—The practical arrest of State Printer Shannon was ordered here today by the Senate state text-book commission. By advice of counsel, Shannon refused to answer further questions as to his department. The commission then adjourned temporarily telling Shannon to return when the sessions were resumed in order to make sure he did return. Sergeant-at-Arms Coughlin, of the senate, was instructed to accompany the State printer during the recess.

Shannon was adjudged in contempt by the committee, following a stormy scene in the committee room.

Shannon based his refusal to answer questions upon a lengthy statement which he desired to be read into the record of the committee. The committee held a consultation and decided that although Shannon's statement would be received and set upon the minutes, he should not be allowed to make verbal statements. After this was done, Shannon was questioned by Attorney Bates, and Shannon reiterated his refusal to answer on the advice of his attorney, Carroll Cook. The committee then adjourned and practically placed Shannon in the custody of the senate sergeant-at-arms. When the committee reconvened, Attorney Roche asked the following question:

"Do you still refuse, irrespective of the character of the questions, to answer this committee?"

"Yes," replied Shannon, "on the advice of my counsel, I refuse."

Thereupon the committee ruled Shannon in contempt.

FREE SPEECH AND PRESS IN WASHINGTON

TACOMA, Wash., Sept. 27.—A Federal grand jury today refused to indict any of the men charged with conspiracy to defeat justice in holding a Seattle mass meeting to impeach Judge Hanford.

This means that free speech and a free press is assured in this state. This was assured today when District Attorney Todd announced the defeat of the purpose of Federal Judge Hanford to punish B. H. Canfield and Leroy Sanders, editors of the Seattle Star, ex-Mayor Fawcett of Tacoma, and six other Seattle men for criticism of Judge Hanford and for demanding his impeachment.

MORGAN SEEKING TO HOLD TITLE AS "KING OF FINANCE"

NEW YORK, Sept. 27.—Determined to defend his title as the king of finance, J. Pierpont Morgan opened his offices early today to arrange for a campaign to uphold the market. To allay signs of fear among the holders of steel securities, Morgan has personally signed the steel trust's declaration of war and defiance to the government, and has informed his associates who expect to reassure investors generally by the power of his name. That Morgan is correct in his surmise, was evidenced by the London market opening bullish today.

DEATH OF ATTORNEY HOVEY
LOS ANGELES, Sept. 27.—Frank W. Hovey, an attorney with offices in the Mason building, who yesterday morning attended the funeral services of Elbert P. Osborne of 1506 Harvard boulevard, his closest friend, died last night from heart failure while on his way to the Receiving Hospital.

Kansans Flirt For Taft's Aid In Senate Race

TOPEKA, Kas., Sept. 27.—President Taft entered the "Regular" district of Kansas today, this being the home of Senator Curtis. Senator Curtis and Governor Stubbs were both with the President, each frankly flirting for Taft's support in a race for the senatorship.

President Taft was greeted on the capitol grounds by the biggest crowd yet encountered along his trip.

Forty thousand people turned out to meet him, including 4000 school children, ranged along the capitol steps.

Senator Curtis announced that he would support President Taft in his peace treaties in the Senate. He said he believed a majority of the people favor the treaties.

CLEVELAND, O., Sept. 27.—That the striking clerks of the Illinois Central will receive the support of the Brotherhood of Railway Trainmen, was officially announced here today, after a conference of the Brotherhood officials.

TWO DEAD, 59 HURT BY
POLICE IN MEXICAN RIOT

MEXICO CITY, Sept. 27.—Two are dead, nine seriously injured and fifty wounded as a result of charges made today by large detachments of mounted police upon mobs in Zocalo and Zaragoza streets, and at the Carolina cotton factory. The most serious rioting occurred in Zocalo street, where 700 persons gathered at the palace doors to demand the removal of secretary of the Federal district, Antonio Riveria. The Red Cross service reported that three of the injured will probably die.

KUECHEL FINDS PETRIFIED WOOD IN SANTIAGO CREEK

George Kuechel, who is superintending the building of the bridge across the Santiago creek on South Glassell street, Orange, came into Santa Ana yesterday with a couple of huge pieces of petrified wood, found by him in the Santiago creek-bed about an eighth of a mile above the North Chapman street bridge.

Kuechel was at work in the creek-bed getting some heavy rock for use in building the South Glassell street bridge. A piece of rock that appeared a bit unusual was seen sticking out of the bank, and Kuechel's men dug around it with their picks, and unearthed what appears to be a piece of petrified sycamore. At least the grain and knot strongly resemble the sycamore.

One of the pieces was left with the Santa Ana Chamber of Commerce, and Kuechel will keep the other at his own home at Orange. In the same vicinity Kuechel dug

Through the efforts of friends, Lewis Dixon, aged 17, of Newport Beach, has made application to the Carnegie Hero Fund Commission of Pittsburgh, Pa., for recognition for his bravery on August 6 in rescuing five people from drowning.

On Aug. 6 Mrs. James McDonald and Arthur Collins of Newport Beach, and Mrs. G. Douglass, A. Thomas, Miss I. James and John James of Los Angeles were caught in a tide-rip. Collins fought his way to shore alone, but the others were taken far out beyond their depth.

A life-boat was launched. A novice attempted to handle the oars, and the boat was thrown back.

Then came young Dixon, a fisherman. He climbed into the boat, seized the oars, and with well directed strokes began picking up the exhausted bathers, one of whom, Mrs. Douglass, was sinking for the third time. Nothing but the cool, skillful work of the young fisherman saved the lives of the bathers.

Mrs. McDonald, the first person lifted into the boat, took off her bathing cap and used it to bale out the last accumulating water.

S. M. Davis of Santa Ana, a friend of the boy's father, Albert E. Dixon, felt that young Dixon ought to have recognition for his bravery, and Davis secured affidavits from a number of witnesses. Among those who urge that Dixon be recognized as a hero are Mrs. McDonald, who plainly states that she owes her life to Dixon, Arthur Collins, Albert Hermes, Mrs. E. M. Hall and A. A. Talbot. The papers in the application have been forwarded.

KUECHEL FINDS PETRIFIED WOOD IN SANTIAGO CREEK

up an old metate, one of the kind found scattered all over California, by Indians.

A few weeks ago a metate and pestle were found by men engaged in excavating the reservoir for the city of Santa Ana on Olive street. There was nothing unusual about the metate, but the pestle was marked with some streaks of white rock. Some of those who saw the relic thought that the marks were hieroglyphics left by some of the former residents of this section. That such was the case is not at all likely. The man who found the articles has moved away from Santa Ana, refusing to sell them to City Engineer Balderston, who tried to buy them.

Pieces of petrified wood have been found in this county before, but it is probable that the specimens found by Kuechel in the Santiago creek-bed are the best yet discovered.

Saniger, Not a Physician, in
the County Jail, Tells
His Story

NO. 2 SAYS HE IS
PROBABLY INSANE

Preliminary Examination of
Accused Bigamist Is Set
for October 5

Freely admitting that he was married to the woman who accuses him of bigamy, Joseph E. Saniger is in the county jail awaiting his preliminary examination. He declares that he thought he was free to marry Edith L. D. Hadlock, to whom he was married last Sunday. Mrs. Saniger No. 2, as she now is, seems not to be greatly concerned. She says that Saniger is probably insane. He was her second choice, and she says she never cared very much for him. Saniger was brought here from Los Angeles yesterday afternoon by Deputy Sheriff Jernigan. He talked of the affair. His explanation is that he believed that his first wife had secured a divorce from him.

"I married her as Marry A. Green, her maiden name, fifteen years ago. That was not her real name. She had been married once before in Utah, and her husband died two weeks after the wedding. She used a fictitious name, and I always regarded our wedding as illegal for that reason. We had four children who are now with her parents, I guess."

"Two years ago in May she deserted me, went back to Salt Lake for a time, and then returned to Los Angeles, where I have lived for seven years. She told me that she had secured a divorce. I was never served with any papers. She knew I expected to marry Edith Hadlock, who was stenographer at the College of Osteopathy at 321 South Hill street, where I was custodian and where I was a student physician. About a month ago the girl I married Sunday went to the woman and asked her if I was free to marry again, and received the information from the woman who now accuses me that I was free to marry."

"I met this first wife often, and I told her I was to be married, and jokingly invited her to the wedding, and told her she could send me a wedding present. I made no secret of the wedding. It may be that she never got a divorce, but she told me that she had one."

Mrs. Mary Saniger, the accuser, has a hair-dressing establishment in the Bryson building. Saniger described her occupation as that of "scalp specialist."

When Saniger got his license he stated in writing that he was a physician. It now develops that he is not a physician. He stated that he was single, which he explains by declaring that since the woman did not use her own name when he married her, that marriage was illegal and therefore he was never married. His position in that regard is weak indeed, since he admits that he knew when he married her that she dropped the use of the name of her first husband.

When the bridegroom was arrested in Los Angeles he had \$1.62 in his purse and a cheap watch, in the back of which was glued a picture of Mrs. Saniger No. 2. There is a very strong suspicion among the officers that Saniger, far from being a physician and one of the men in control of the College of Osteopathy, is nothing more nor less than the janitor of that institution. In his effects, which failed to contain a bank-book, was a bunch of keys that Saniger says belong to the college.

This afternoon Saniger was taken by Deputy Sheriff Boynton before Justice Cox. Saniger said he had no attorney.

"You are entitled to have witnesses summoned in your behalf," said the justice. "Have you any witnesses?"
"The Mrs. Saniger who issued this warrant knows more about it than anyone else in the world," replied Saniger dejectedly.

Saniger's preliminary examination was set for Oct. 5, and his bond was set at \$2500. He probably will make no effort to get bail.

HOOSIER LABOR
DEFIED GOMERS
AND SEATED WOMEN

EVANSVILLE, Ind., Sept. 27.—Sweeping aside the ruling of Samuel Gompers, president of the American Federation of Labor, that no woman delegate should be seated in convention of the Indiana Federation, the Federation yesterday, after a heated debate, overwhelmingly voted to seat eight women delegates of the Women's League. Mrs. Lillie Schrenker of Muncie, led the fight for the women. The convention authorized a telegram of cheer to John J. McNamara, the imprisoned structural iron worker's secretary at Los Angeles.

M'CARTHY BURIED IN LANDSLIDE OF VOTES

James Rolph, jr. Won Out as Mayor in
Biggest Shower of Ballots Ever Cast
in a Bay City Election

SAN FRANCISCO, Sept. 27.—James Rolph, Jr., was elected mayor of San Francisco yesterday, and Mayor P. H. McCarthy with his slogan that San Francisco should be the "Paris of America" was hurled into political oblivion by the most tremendous majority ever given in a San Francisco mayoralty fight.

Rolph's majority at midnight was variously estimated at from 20,000 to 25,000. He beat McCarthy in practically every assembly district of San Francisco. Even the south of Market and North Beach districts of San Francisco—districts that time and again have given huge pluralities to the union labor party candidate—turned against McCarthy. The old Schmitz and McCarthy strongholds in some instances outdid the fashionable residence districts in piling up the majority of Rolph.

It was the first direct primary election ever held in this city to determine the personnel of the municipal officers of the city and county of San Francisco. The vote approximated 50,000 and was the largest ever cast in the history of the city. Under the operations of California's new direct primary law a majority vote at the primary constitutes an election, and Rolph's only real contender was Mayor McCarthy. The other candidates for mayor polled less than 4000 votes between them.

An official announcement from the

city registrar today was that 78,900 votes had been cast. A total count of the ballots in 180 out of 356 precincts, showed that Rolph, when the tallying shall all be done, will probably have 48,498 votes to his credit. On the same basis on which the Rolph vote is figured, McCarthy will have polled 25,749 votes; McDevitt, the Socialist candidate, 3315; Silbert, Social Labor candidate, 1848; Boggione, Independent, 40 votes. These figures will give Rolph a majority over all of 16,996, and a plurality of 22,199 over McCarthy.

Returns from the same 180 precincts figured in the mayoralty election, indicate the election of P. V. Long as city attorney, Washington Dodge as city assessor, and D. C. Deasy, and C. L. Weller, police judges. H. I. Mulcrevy so far is in the lead for city clerk. For sheriff, Frederick Eggers and Thomas F. Finn, incumbent, are neck and neck. That C. H. Fickert and R. L. Hathorn, will have to fight it out for the district attorneyship is a foregone conclusion, the count being as follows: Fickert, 12,351; Hathorn, 11,605.

As the count slowly proceeds, it seems improbable this afternoon that any candidate for supervisor will receive enough votes to elect, and 36 candidates may be up at the final election. Of these it now appears that at least eight will be candidates on the regular labor ticket.

6 DIE AS RESULT OF RACE BATTLE

Arkansas Mob Follows Shooting
of Sheriff With Doubtful
Lynching

PINE BLUFF, Ark., Sept. 27.—Following a battle of officers and negroes near Dumas when Sheriff W. D. Preston, Deputy Sheriff Stein and two negroes were killed, a mob today lynched Charles Malpass, white, aged 67, the father of a young negro killed earlier in the affray. Another negro, a member of the same family, found by the officers after the battle, was killed on the spot.

The battle occurred at the Malpass home where the father of the mixed-blood family was shot in the leg and otherwise seriously wounded. Fearing he would survive and ultimately escape, the mob hanged Malpass at a water tank.

'FRISCO DISPUTE OVER AUTO CHARGE LED TO SHOOTING

SAN FRANCISCO, Sept. 27.—Gus B. Berling, official of the United States Fidelity & Guarantee Company, shot and probably fatally wounded William Kent, a chauffeur, with whom he had been arguing at Union Square Motel early today.

The quarrel was over disputes about payment due the chauffeur for driving Berling for three hours last night.

Los Angeles Workers Demand
Increase in Wage Scale—
Demands Refused

LOS ANGELES, Sept. 27.—Employees of the Standard Oil Refinery at El Segundo went out on strike today following the refusal of the company officials to accede to their demands.

The union employees of the company, numbering 90 men, including boiler-makers, tag men, shippers, riveters and cokers, have asked for an increase of wages to fifty cents a day, with eight hours for regular workers, and an increase to 37½ cents with eight hours for helpers.

COLFAX, Cal., Sept. 27.—Confronted by a strong south wind at right angles, Aviator Fowler was unable to start on his transcontinental flight this morning, as he feared he would lose his way owing to the low clouds. Fowler's machine remained in the open last night and was blanketed with frost this morning. Fowler later announced that he probably would not attempt a flight until tomorrow.

OVINGTON SETS 325 MILES
PER DAY AS HIS PACE

NEW YORK, Sept. 27.—A schedule of 325 miles per day is the task Earl L. Ovington has placed upon himself for his transcontinental dash. Ovington will leave New York Sunday. He will have just 10 days in which to pilot his Blériot monoplane across the continent, and plans to reach Chicago, 1000 miles, in three days.

SALAMANCA, N. Y., Sept. 27.—Galbraith P. Rodgers must wait several days for rebuilding of his aeroplane, before resuming sea-to-sea race.

LITTLEFIELD WILL BE HEAD COUNSEL FOR STEPHENSON

MILWAUKEE, Sept. 27.—Ex-Congressman Martin Littlefield will be chief counsel for Senator Isaac Stephenson, the millionaire senator, accused of buying his way to a seat in the National Capitol.

The Heyburn senate investigating committee of which Senator Weldon B. Heyburn of Idaho, is chairman, will begin the investigation of Stephenson's election here on October 2.

WHAT GOVERNOR J. H.
HAWLEY, OF IDAHO, SAYS
ABOUT WOMEN VOTING

"The fear often expressed during the campaign at which the Constitutional amendment was adopted 16 years ago, that the good women of the state would not participate in the elections, but that those of bad character only would avail themselves of the privilege, has been completely dissipated. It is our best women who now give the greatest attention to their political duties, and they are as zealous in fulfilling this duty as are the men."

"The privilege has not lowered women in the slightest degree, but it has a marked effect on the character and standing of the candidates aspiring for public offices."

ITALY GIVES ULTIMATUM TO TURKEY

Demands Italian Occupation
of Tripoli—Answer Must
Be Immediate

ITALIAN WARSHIPS ARE
ALREADY OFF TRIPOLI!

Six Thousand Troops Are
Ready for Embarkation at
Moment's Notice

CONSTANTINOPLE, Sept. 27.—The Italian government today delivered an ultimatum to Turkey, demanding that the latter agree to Italian occupation of Tripoli. The ultimatum declares that unless Turkey replies before tomorrow the province will be occupied without further discussion.

ITALIAN WARSHIPS ARE
AT TRIPOLI—TROOPS READY

VIENNA, Sept. 27.—Reports from Tripoli say that three Italian warships have arrived off the province, cruising about and apparently waiting to intercept any Turkish force. Dispatches say that 6000 troops are ready for embarkation at Palermo.

WAR FLEET EN ROUTE FOR
TRIPOLI PASSES MALTA

MALTA, Sept. 27.—Two Italian battleships and four torpedo boats passed here today en route for Tripoli. It is believed that Italy plans a demonstration, and also means to prevent, at any cost, the landing of Turkish reinforcements.

NON-COMBATANTS LEFT TO
CARE OF FRENCH AND ENGLISH

LONDON, Sept. 27.—An unexpectedly tense situation developed along the coast of Tripoli today, when it was discovered that the Italian steamers would not transport any British and French steamer agents.

It was announced today that British and French steamers leave tonight to bring all of the non-combatants desiring to leave before hostilities are commenced.

FISHER WAS TARGET OF RED HOT ATTACK

Bristow Went at Him Hammer
and Tongs for Slap at In-
surgent Kansas

HUTCHINSON, Kas., Sept. 27.—Secretary Ballinger's successor, Secretary Fisher, succeeded here today in making himself the target for a red hot insurgent speech by Senator Bristow senior senator from Kansas, notwithstanding that President Taft sat on the same platform with them both. The President followed his own prescription for a man who has been "hit square between the eyes," and "sat still." The crowd cheered.

Secretary Fisher thought this the proper time and place to flame into a denunciation of "hypocritical, demagogical progressives, who declare for progressiveness and then block every practical progressive policy put forth."

The senator in reply went after Secretary Fisher hammer and tongs. He took the denunciation unto himself and extended it to his audience. He resented Fisher's attack on "hypocritical progressives" as an impugning of the integrity of Kansas citizens.

What Kansas Demands
He demanded that the people of other states concede the honesty of Kansas as Kansas conceded theirs. Tall and spare, he leaned over the people and grove home with nervous energy his local appeal to a local audience. It took hold and the crowd cheered and cheered.

YOUNG ASTOR TO ENTER LAW

SHIPPED 3170 CARS IN YEAR

San Bernardino Valley Citrus
Growers Got \$3,612,000
for Their Crop

San Bernardino Sun: The Mutual Orange Distributors, in the year that has just closed, shipped 3170 cars of citrus fruits from San Bernardino valley. In the previous year the organization shipped 1650 cars. This in itself shows the growth of the Distributors, a comparatively new factor in the citrus industry of this section. The annual report of the organization has just been completed and given to the stockholders and shows that the 3170 cars of fruit were sold in the eastern markets the past season for \$3,612,174.89. This is an excellent showing, and due to the extension of market arrangements until the organization now has an agent in every city of importance in the United States and Canada, and was able to handle double the output of last year and at the highest market prices.

The operation of the Mutual Distributors are confined principally to the San Bernardino valley. The organization was formed to market fruit of the foothill sections of the valley. The quality of the fruit is the standard of membership. The fruit must be good. Most of it comes from the foothill groves that skirt the San Bernardino valley, and this fruit is recognized in all the markets as the best grown, the company is gaining an enviable reputation with all the best dealers of fancy fruit throughout the United States and Canada.

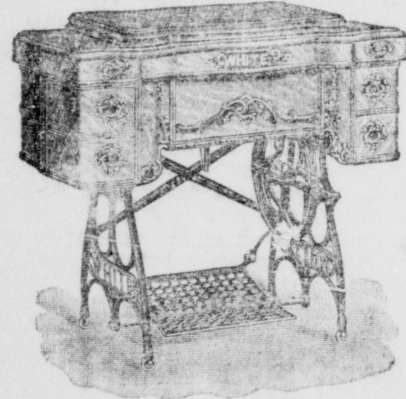

Advertising Has Paid

Two factors are credited largely by the officers of the M. O. D. with the growth and success of the organization. One is the excellent marketing arrangements with agents in all important cities, and the other is the advertising campaign that has been launched. This was first used in the season of 1909-10, but in the past season developed enormously, and with great success.

The wrappers of all oranges marketed by the company are stamped as good for premiums and that they proved very popular is shown by the fact that during the larger part of the season \$100 or more in premiums were mailed daily. The premiums caused a demand for M. O. D. oranges, and are credited especially with helping the demand for many fancy brands.

This organization is also affiliated with the Citrus Protective League of Southern California in anything that advances the industry, working in conjunction with the Exchange and with independent growers in looking after the interests of the growers in the protection of freights, tariff matters, etc.

The outlook for the coming season is good. No material changes are planned by the management, the marketing arrangements having been extended so generally the past year, yet nothing is being left undone to secure better facilities for marketing.

It is not planned to take on all of the business than can be secured but there will be a natural growth, young orchards coming into general bearing, and new growers joining the various associations and adding to the general output.

The crop for the coming season gives every promise of being as large as for the past year, at least in this section.

The management plans for the coming season and the future to make special efforts in the handling of the oranges, both in the picking and packing, so that the fruit shall show the best keeping qualities that it is possible to obtain. The contract has been let for boxes for the year and all are to be beveled, so that there will be no sharp points to damage the fruit in packing. Each house of the distributors will make special efforts along these lines.

FOOLS' NIGHT IS SATURDAY

ANAHEIM, Sept. 27.—There's going to be a celebration of "All Fools' Night" in Anaheim Saturday evening, Sept. 30, and the affair promises to be one of the most unique ever put on.

The citizens will on that occasion throw dignity to the four winds, appear in every odd and grotesque costume imaginable, with masked faces, and join the children in one grand frolic, with King Hilarity reigning supreme.

An exceedingly novel parade will start the evening's fun. Three bands, one composed of hoboes, a second of "made up" fat women and a third a combination of oddities, headed by "Soo See in disgust," have been organized among local musicians. Behind each will trail scores of men, women and children in every sort of get-up imaginable, each armed with all kinds of noise-producers and at the same time exercising their lungs overtime.

The hullabaloo will be added to by the California Carnival company, which is furnishing the attractions for the K. of P. celebration of which "All Fools' Night" is a part. They will join heartily into the spirit of the thing, parading their "bally-hoo" people, as well as all performers. Some of the animals from the Jungle Zoo will also be led in the procession, thereby coming up to a circus and going a one better.

The procession alone will be well worth seeing. It will be followed by adjournment to the grounds, where until midnight the gay crowd will engage in lively confetti battles. Confetti will be used only the one night, but lost time will be more than made up for.

Information

When your back gives out;
Becomes lame, weak or aching;
When urinary troubles set in,
Your kidneys are "in a bad way."
Doan's Kidney Pills will cure you.
Here is local evidence to prove it:
S. H. Whitehead, 807 West First
street, Santa Ana, Calif., says: "A
great many people have called upon
me to learn about my experience with
Doan's Kidney Pills and at such times
I have always recommended this remedy
in the highest terms. For several
years I was troubled by a weak
and painful back. If I did any lifting,
or over-worked, I suffered from sharp
twinges through my loins. I also
had much trouble from the kidney
secretions, the passages being at
times too frequent, then again just
the reverse. Doan's Kidney Pills
helped me at once and it was not
long after beginning their use that I
was entirely relieved. During the
past two and a half years, I have had
but little trouble from my back or
kidneys."

TEAM COACH HAS BIG JOB

While Few Old Players Re-
main, Many Promising
Players on Hand

The High School football squad held the first practice of the year last evening. Over twenty were out for business while a big bunch was out to see the opening. More are expected in football tocs this evening. Three full teams at least should report.

It looks like a big job for the coach, Prof. Ratcliffe, to get a team equal to that of last year. But three of last season's regulars were out—Jack Newcomer, captain; "Brick" Grouard, and "Bill" Warren. Homer Robinson, who showed up well in the "All Star" game last Thanksgiving, was on the spot along with Visel West and Smart of last year's subs. With these exceptions it was a new squad. There will be a few more out later, who got some second team experience last year as Greeley, Pease and "Red" Timmons who will send football stock up a few points, but to fill the shoes of the Reeves brothers, Lutz, Catland, Davies, Peck, Wotton and Menges will be a hard job. "Brick," the all Southern California tackle of last year, is back, as husky as ever and looks good to beat his own record. Capt. Newcomer is ready for his old position at left half while "Bill" Warren is on the job at center. Robinson should make the team behind the line or at end, while Visel's 182 pounds should count in a line position.

The loss of Tedford, the star sub-quarter of last year, because of parental objections is a serious one to the team. He was put a little behind Ed Reeves as a quarter and has been counted on as a star for the 1911 bunch. A good quarter may be found in West or "Spud" Morrison or some other candidate but at best he will lack Tedford's experience. "Tiny" Barker and "Shorty" Smith, both promising material, are out of the game for the same reason as Tedford.

Hard practice will bring results, but at best this year's team will not be the veteran bunch of last season that took San Diego into camp 35-0.

Conference representatives will meet in Los Angeles next Friday to arrange schedule and other business. A full schedule will be given the team but it is the policy to avoid heavy college teams and confine the service to high schools alone.

Coach Ratcliffe can be counted on to develop the best team possible. He is recognized as the best high school football coach in Southern California, and if ability, enthusiasm and the knack of keeping his players loyal and hard at work count for anything Santa Ana will have a good team. Coach Ratcliffe makes a fast team. He deserves success, and if his team falls short of the championship it will not be his fault—never.

GRANGERS WOULD ERASE MIDDLEMAN

Visit Roosevelt Who Applauds
Their Purpose—"No Pay
for Man in the Way"

NEW YORK, Sept. 27.—Grangers to the number of 195, representing every county in the state of Pennsylvania, who are in New York looking into the system of distribution of farm products, went over to the Outlook office yesterday to see former President Roosevelt. There were two many of the farmers for them to get into any of the offices, so they stood in the hall and Col. Roosevelt mounted the stairs as a speaker's dais and spoke over the banisters.

The farmers are in town in an effort to see if they can't cut out some of the profits that come between the farmer and the producer.

Roosevelt said that this purpose met with his heartiest sympathy. "I don't object in the least," he said, "to paying more for something if I am paying more to the farmer or to the laborer. What I object to is paying profits to persons who stand between me and the worker. I believe in a high standard of wages, but I believe that we should drive out every middleman who does not help the consumer."

"Certain middlemen are indispensable and they deserve to get their reward. I want to pay a man when he does work, but I do not want to pay a man for being in the way. A man does not deserve a living unless he does work."

The grangers are in town for three days at the instigation of the United Stores association, which plans a system of distribution without middlemen.

EXAMINATIONS TO BE GIVEN IN OCTOBER

Forest Supervisor H. A. E. Marshall, in charge of the Cleveland National Forest, of San Diego has a limited supply of the application blanks for the examinations to be given by the Civil Service Commission for assistant forest rangers on October 23 and 24, and because the supply is limited it is preferable that applicants address the Civil Service Commission, Washington, D. C., for the blank.

By the examinations the forest service will secure eligibles to fill vacancies in the position of assistant forest ranger, which position pays \$1100 per year.

Examinations in Southern California will be held under the direction of forest officers at Los Angeles, San Diego and Santa Barbara in Southern California. Practical questions and field examination will aim to test the ability of competitors for actual duty. In this state tests will not include timber estimating, but they will include practical tests in riding and packing and questions pertaining to handling cattle and sheep. Applicants must be over 21 and not over 40.

The Value of the Country Newspaper

Its Great Value to the Local Merchant

To begin with, the Local Newspaper, in proportion to its circulation, is infinitely the Most Valuable Advertising Medium of this Twentieth Century.

Let Us Show You Our Way of Reasoning

The value of the Local Newspaper is based largely upon the fact that the people who read it look upon it as a Neighbor and as a Friend, as a Personal Acquaintance, and they attach to its printed statements and to its advertisements far greater importance than to the statements and advertisements of the metropolitan papers, or those made in circulars and bills.

As one friend talking to another about certain kinds of goods, can influence a friend more than a stranger, so a Country Newspaper, standing on a footing of friendship with its readers, can talk to them about goods for sale or on any topic and impress them as much as their Best Friend.

We are positive that the Register has the friendship of its more than 12000 daily readers. We base our assertion on the fact that the Register advertisers get results and get them immediately.

PROGRESS OF UNITED STATES, 1800 TO 1911

Statistics Showing Vast Increase in Both Population and Wealth in This Country

WASHINGTON, Sept. 27.—The Department of Commerce and Labor has issued a short document entitled "Statistical Record of the Progress of the United States, 1800-1911." In cases in which the subjects considered are measured by government fiscal year periods, the figures for the fiscal year 1911 are included. In those in which calendar year periods are used, only the figures for 1910 can be given.

Among other facts stated are the following:

Area Vastly Increased

Area of the United States in 1800, 843,255 square miles, advancing to 1,743,630 square miles in 1910; to 2,995,536 square miles in 1850 and to 3,026,789 square miles in 1853, since which date there has been no change in the area.

In 1800 the population was 5,333,000, in 1911, 93,775,000.

The public debt in 1800 was \$83,000,000; in 1865, at the end of the Civil war, it was \$2,675,000,000, less cash in the treasury; in 1911, the public debt was \$1,015,000,000. The per capita debt in 1800 was \$15.63; in 1865 it was \$76.98, and in 1911 it was \$10.83.

The amount of money in circulation in 1800 was \$26,500,000. In 1911 it was \$3,228,627,002, and the per capita circulation which was, in 1800, \$4.99, was in 1911, \$34.35.

Deposits in all banks in the country cannot be shown earlier than 1875, in which year they were set down as a little over \$2,000,000,000. In 1910 they were \$15,000,000,000.

The number of depositors in savings banks in 1820, the earliest year for which the figures can be given, was a little less than 9000. In 1891 the number was a little over 9,300,000.

The government receipts which amounted to \$2.04 per capita in 1800, were \$14.65 in 1866, and \$7.47 in 1911, or about one-half what they were in 1866.

Exports of domestic merchandise, which amounted to \$2,000,000 in 1800, were over \$2,000,000,000 in 1911, and imports, which amounted to \$91,000,000 in 1800, were \$1,500,000,000 in 1911.

Anaheim's Big Fair Began This Morning To Last Five Days

ANAHEIM, Sept. 27.—The city of Anaheim is now ready to welcome any one to their five days of fun and frolic which commenced this morning. At 9:30 o'clock and just before the floral parade, Queen Monica was crowned at the throne which has been created for her majesty on East Center street. After the crowning ceremony, Mayor C. O. Rust presented to the queen of the carnival a key to the city.

The queen's royal court includes four maids-of-honor, Miss Estelle Newcomb of Buena Park, Miss Dea Damron of Huntington, Miss Leona Esmy from Fullerton and Miss Mary Lewis of Orange. Her pages are the Schneiders sisters, Misses Marie and Frances, of Anaheim. Beautiful Queen Monica arrived in the city yesterday afternoon and has her headquarters at the Commercial hotel, where her entire court will remain during the carnival. After the immense floral parade there was a band concert and attractions at the fair grounds.

The Japanese society of this city has donated \$1000 worth of fireworks to the K. of P. order, which they will use Sunday. Half of the explosives are to be used at daybreak Sunday and the other half will be set off during the day. This big donation came as a complete surprise to the carnival manager, George W. Hamler, who is very grateful to the little brown men.

The Brewer triplets will be one of Anaheim's productions and will doubtless be viewed by thousands during the carnival. The little ladies are the year-old daughters of Mr. and Mrs. M. E. Brewer of West Anaheim. They are healthy babies and all look alike and tip the scales at the same figure.

SLEEP IN SCHOOL TO STOP EYE STRAIN

Los Angeles Teacher Tries New Theory and Finds it of Practical Value

Los Angeles Tribune: Mrs. Lillian Ayers, a teacher of the first and second grades in the Lincoln Park School, believes that she has discovered a method to drive eye strains and weak eyes from public schools. Her plan is to permit the students of the first two grades to alternate a recitation period with a period of sleep. A number of the students have already trained themselves to take advantage of the sleep period and the others are able to simulate slumber with such realism that their rest is as thorough as the others.

Mrs. Ayers believes that in the first two grades the children should not tax their eyes or their strength. Straining of the eyes in the first or second grades means glasses for the children when they reach the fifth and sixth year, she says. The new plan eliminates all possibility of a too thorough application to books.

George C. Bush, city superintendent of schools in South Pasadena, has studied the theory put into practice by Mrs. Ayers and believes that it is practical.

In instructing the students to take advantage of the sleep period Mrs. Ayers told them that they should not be disturbed by anything and that each should close their eyes during the entire thirty-minute period. At first the noise incident to the recitation annoyed some of the children. Practice has made it possible now, however, for one class to recite while the other grade sleeps in the same school room.

Know Your Work and Do It

There is a perennial nobleness and even sacredness in work; were he never so benighted, forgetful of his high calling, there is always hope in a man that actually and earnestly works; in idleness alone is there perpetual despair. Work, never so mammoth, mean, is in communication with nature; the real desire to get work done will itself lead one more and more to truth, to nature's appointments and regulations—which are truth. The latest gospel in this world is: Know thy work and do it. Know thyself—long enough has that poor self of thine tormented thee; thou wilt never get to know it, I believe. Think it not thy business, this of knowing thyself; thou art an unknowable individual; know what thou canst work at and work at it like Hercules! That will be thy better plan.—Thomas Carlyle.

BEN LINDSAY IN FOR THE CHILDREN

Calls on Congress to Establish Children's Bureau in Labor Department

KANSAS CITY, Sept. 27.—Citing the fact that more than 2,000,000 children are born in this country every year, Judge Ben B. Lindsey of Denver this week told the delegates to the congress that 100,000 children annually are brought into the courts as dependent and delinquent, and declared his belief that the duty of the national legislature was to enact a bill providing for the establishment of a children bureau in the department of commerce and labor.

"The government spends annually millions of dollars investigating the diseases of animals," he said. "If we have a somewhat analogous bureau dealing with the welfare of the child life of the nation it would be doing no more for them than we are now doing for cattle and hogs."

The judge pointed out that the various activities that have grown out of the cry of "Back to the soil" to promote the pleasure, advantages and opportunities of farm life have not checked the onward march to the cities.

Judge Lindsey's remedy to reach the thing is twofold:

"First, perfect our system of education. We need to perfect our methods of moral training. We must more and more develop heart and conscience that our children may be equipped for moral as well as industrial efficiency. Second, the application of a system of real justice among men which means an industrial, social and economic world in which every man shall really have an opportunity to develop the best that is in him."

Relief for the "Morning After"

Those persons who, after a more or less strenuous night's fun, awake with that extremely uncomfortable sensation known as a "head," will be pleased to know that Rexall Liver Salts offer remarkable relief for this condition.

One teaspoonful in water, repeated several times at hourly intervals, will make you feel like a new man.

Results are guaranteed.

To Cultivate a Memory

The best way to remember a thing is thoroughly to understand it, and offer to recall it to mind. By reading continually with great attention, and never passing a passage without understanding and considering it well, the memory will be stored with knowledge, and things will recur at times, when we want them, though we can never recollect the passages or from whence we draw our ideas.

Bounding Health

Every man and woman has an inherent right to—and can have and enjoy—the blessings of vigorous health and strength. If you are afflicted with what nature and science have provided for the renewing and up-building of the human body, the citation—overcoming nervous debility—is a "pleasant-to-take" tablet, containing no habit-forming drugs.—(the result of Mr. Brackett's twenty years' experience filling doctors' prescriptions and coming in contact with thousands of sick people. The proof of its merits are the thousands of cures it has effected. Brackett's System Builder assists nature in building vigorous bodies by purifying and renewing the blood, thereby strengthening the heart, improving the circulation—overcoming nervous weakness, debility, loss of ambition, loss of vitality; by revitalizing, re-invigorating the body's brain and nerves to their highest efficiency, thus overcoming all chronic disorders of the system. TALK 1000 MILES WITH TELEPHONE

Ordinary Telegraph Wire Used With Marvelous New Instrument

MONTREAL, Sept. 27.—A few days ago the office of Electrical Superintendent Camp, of the Canadian Pacific railway telegraph, witnessed the consummation of an experiment in advance telephony which promises to revolutionize long distance telephoning the world over and which opens up the way for astounding developments in the future.

This was nothing less than the sending of a message by telephone over the telegraph wires of the Canadian Pacific railway from Montreal to Fort William, a distance of 1000 miles, by means of the Stilwell-Wilson telephone instrument.

The wire utilized was an ordinary telegraph wire, and communication was established with Fort William easily, voices being heard clearly at both ends of the line.

David Wilson, the inventor, is a Chicago man who has been working on his instrument seven years. His chief associate is A. E. Stilwell, of New York, president of the Kansas City, Mexico and Orient railway, and of the United States and Mexico Trust Company.

Two of the instruments were connected up with the ordinary telegraph and there were two other instruments of the same type at Fort William in the office of the Canadian Pacific. Telephonic communication was established between the two stations and several conversations carried on. The voices were clearly heard.

An additional experiment of conversation between Fort William and North Bay, a distance of 635 miles, was successful. The experiment demonstrated the ability to talk over ordinary telegraph wires with the new telephone.

The invention makes practical long distance telephoning for practically unlimited distances over hitherto unavailable wire, namely, those used for ordinary commercial telephony. The present long distance telephone service, which is more or less effective for a distance up to about 500 miles, requires a copper wire weighing about 435 pounds to the mile, but with the Stilwell-Wilson telephone, long distance telephoning is made a commercial certainty over a distance of 2000 miles and more with the use of an ordinary telegraph wire weighing about 208 pounds to the mile.

President Stilwell, at the conclusion of today's experiment, expressed himself as absolutely satisfied, and predicted that shortly it would be possible to talk by long distance telephone from New York to San Francisco.

Furthermore, he is confident that it will be possible to apply the invention for use on submarine cables, and thus effect telephonic communication across the ocean.

WORD FROM COLLIER'S

Collier's Weekly with its usual clear vision sees in California vigorous opposition to but two of the amendments, those providing votes for women and for the recall. While these are of great importance, the voters should not overlook the vast importance of other amendments, particularly those providing much needed railroad legislation. Collier's says:

"In California's campaign for the adoption of certain reforms only two propositions are being vigorously resisted, one the recall amendment, which includes the judiciary; the other woman suffrage. Referring to the recall of the judiciary, United States Senator Clapp of Minnesota, in a recent public speech in California, said that there was 'no place in the autonomy of government for an irresponsible power.' Oregon has for years had a provision for the recall of judges, but no attempt has been made to recall a judge during all the time the provision has been in operation, and no people is likely to recall a judge except for widespread belief in his dishonesty. As for woman suffrage, in those states where it is in practice it already has an admirable record for reform and not a point has been scored against it."

Here's hoping that Anaheim will have tremendous crowds at its carnival. Anaheim has spent a lot of money preparing to entertain her visitors and preparing to show to those visitors the things that grow in Orange county. It takes a celebration such as the Mother Colony is conducting to make our own county people fully aware of the importance of the county and to keep our own people fully informed of its vast wealth and resources. Anaheim should be the objective point of every Santa Ana at least once during the festival.

CRITICIZING JUDGES

Fresno Republican: The American judiciary is "in bad." Nobody has a good word for it except the advocates of including judges in the recall. The anti-recallists are the worst judge-baiters of all, with President Taft, a judge himself by training and temperament, at their head. The president is on record as regarding our judicial procedure as a "disgrace to civilization," and he now fortifies his veto of the Arizona recall constitution by reiterating his former criticisms of the judiciary. Theodore Roosevelt in his theoretical opposition to the recall of judges, advocated some other summary method of getting rid of some of our California judges, or, failing that, he would accept the recall as a practical alternative. While the recall amendment was pending, the agitation for the actual removal of some judges came nearly all from anti-recallists. In fact, the whole attitude toward the courts seems to be divided into two positions—those who would give the people the power to remove judges, and those who would evade that by making some exemplary removals now by more summary methods. The traditional attitude toward the courts has been completely and unanimously reversed.

And yet the quality of judges was never higher, as to character, and probably never so high, as to ability and learning. We have for the most part good men on the bench, and there is no design on the part of the recallists to disturb these men. What is wrong is the system, and what is wanted is to revolutionize that system.

California is revolutionizing the system in two ways, one much discussed, because it is controverted, and the other, almost more important, little discussed because it happens to have no overt opposition.

The discussed measure is the recall, as including the judiciary. That is revolutionary, not because many, or perhaps any, judges are likely to be recalled, but because the reserved right of recall, even if not likely to be exercised, establishes the judge in a certain responsibility to the people. The remedy goes to the system all the time; to the individual judge rarely, and perhaps never. And the system needs the revolution.

The other measure, less discussed, is the very next one on the ballot, Senate No. 26, (ballot No. 9) the Boynton amendment revolutionizing the whole principle of appeals in criminal cases, in California. Hitherto, appeals have been on law points, and if the higher court found "error" of certain sorts and degrees, the decision of the lower court on the points

in error was reversed and the case remanded. The case itself, as a case, never got up. Now, if this amendment passes, the only thing to appeal will be the whole case, on its merits, and the only reversals will be in cases where, after examining all the evidence, the appeal court finds a miscarriage of justice.

With these two amendments passed, the beginning of the transformation of our judicial system will have been made. That is needs transforming, everybody concedes, especially those who disapprove of these methods of making the transformation.

Now that the City Trustees have successfully wrestled with and solved the electric light problem, they will begin working upon the solution of another problem, probably that of more sewers and an adequate outfall.

Los Angeles has thrust another bigamist upon us, one of the penalties for the reputation of Gretna Green. With but \$1.62 in his pocket and no bank-book in his possession, he seems to be scant material for a lawyer's fee.

Asiatic Features

Asia has the highest mountains of the world as well as the deepest "sink holes." The Lukahun depression in central Asia is 400 feet below sea level and there the yearly amplitudes of the barometer are greater than anywhere on earth.

Play Festival Attended by 7000
Denver had a play festival recently in which 7000 children took part in dances, gymnastic exercises and organized play. It was made the occasion for family picnics and general recreation, and the total attendance is estimated to have been 65,000.

Boosts in Behalf of Suffrage Amendment

The amendments to be voted upon at the coming constitutional election number twenty-three—and the suffragists are urging every voter to go to the polls and cast his vote, not only for amendment 4, but also for all of those that will aid in direct legislation—the keynote of political progress. The amendments are as follows:

- No. 1—Weights and measures.
- No. 2—Home rule for counties.
- No. 3—Divided legislative session.
- No. 4 (originally known as No. 8)—Equal suffrage.
- No. 5—Lumber railroad use.
- No. 6—Charters for cities of \$500.
- No. 7—Initiative and referendum.
- No. 8—Recall of state officers.
- No. 9—Criminal trial.
- No. 10—Workingman's compensation law.
- No. 11—State civil service law.
- No. 12—Power to state railroad commission.
- No. 13—Enlarged charter powers.
- No. 14—Municipal ownership.
- No. 15—School books.
- No. 16—State railroad commission.
- No. 17—Plurality to elect.
- No. 18—Local courts.
- No. 19—Railroad passes.
- No. 20—Clerk of supreme court.
- No. 21—Impeachment.
- No. 22—Old soldiers and sailors.
- No. 23—Railroad rates.

The governors of the five suffrage states have given the California campaign a great boost by their advocacy of suffrage at the governors' convention in New Jersey. They are: Joseph M. Carey of Wyoming, Governor John F. Shafroth of Colorado, Governor M. E. Hay of Washington, Governor William Spry, and the governor of Idaho.

Ministers of every denomination have become affiliated with the suffrage cause, which proves more conclusively than any other fact that the movement is a moral and educational one which appeals to every order or individual that is working for a greater humanitarianism. Dr. J. Whitcomb Brougher of the Temple Baptist church of Los Angeles, Dr. Chas. Edward Locke of the Methodist Rev. Hodgins of the Unitarian, Dr. Wm. Horace Day of the Congregational, Rev. F. H. Post, Episcopal, Hugh K. Walker, Presbyterian, Dr. C. Elwood Nash, Universalist, Father Donahoe of the Catholic church, Rev. Blight of the Los Angeles Fellowship, are but a few of the divines who are doing all in their power to bring victory to the suffragists on the 10th of October.

Dr. Chas. Edward Locke, pastor of the First Methodist church in Los Angeles, in one of the strongest dissertations of the suffrage campaign, said in the pulpit last Sunday:

"Inherently women are human beings and have as clear a right and title to the ballot as have men. Certainly women have the same right to life, liberty and pursuit of happiness and should have the same right to the protection of those interests. Our

forefathers established their claims to independence on that talismanic phrase, 'the consent of the governed.' By refusing to women the right of suffrage they are classed as incapable, deficient or unworthy, with idiots, lunatics and criminals. This is a colossal and outrageous injustice.

"The ballot is a token of freedom. It was given to the negro upon his emancipation. If a woman is a free citizen she should possess this power of expression."

Dr. Robert Burdette declares that he cannot and will not fight a woman—even though Mrs. Force Scott, the New York anti-suffragist, has given him a challenge. Dr. Burdette writes as follows in reply to the challenge, which appears below:

"Dear Sir:—Believing that you are interested, as I am, in presenting the facts of the woman suffrage issue fully and fairly before the whole people, I beg the courtesy of appearing on the platform with you at the next suffrage meeting you address, not for a debate, but that we each take half an hour to express our respective views. Kindly let me hear from you at your earliest convenience, and very greatly obliged."

NO CASCARET USER EVER HAS HEADACHE

A 10 Cent Box Will Keep Your Liver, Stomach and Bowels Clean, Pure and Fresh for Months

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passageway for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means inside cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever have headache.

Our Washington Letter

WASHINGTON, Sept. 21.—The movement started on the Pacific Coast looking toward the selection of the historic battleship Oregon to lead the world-wide pageant that will open the Panama Canal to commerce in 1915 is gaining such headway that it is believed this vessel is assured of the honor.

Assistant Secretary of the Navy Beekman Winthrop favors the proposition, and explains that the only thing necessary to bring about the Oregon's selection is a sufficient amount of public sentiment in its favor.

"The whole question is merely one of sentiment," said Winthrop today, "and if the people of the country show that they would like to have the Oregon, who won her first laurels by the remarkable flight from Puget Sound navy yard to Cuba by the present round-about route, to be the first to go from ocean to ocean through the newer and shorter way, the department will see to it that their wishes are fulfilled."

The Oregon is now anchored at the Puget Sound navy yard, having just been completely overhauled, and she is pronounced fit for such another cruise as made her famous more than a decade ago, although anxious to make the proposed triumphal voyage through the canal ahead of other vessels.

The Reclamation Service announces its latest homestead undertaking, the Huntley irrigation project, in Montana, is fast being settled up by newcomers to the West, and that splendid crops of all sorts are being produced. One of the principal crops being raised with success in the new country is sugar beets. A report received today said:

"Thirty-six hundred acres were

planted to sugar beets this year. The heavy lands on the project which at first were avoided by the settlers are proving the most desirable for sugar beet culture. Seven beet dumps on the project make short hauls for the farmers.

On September 12 there were 103 remaining farms available for settlers, and the service reports that there is ample opportunity at this time to secure a first-class farm less than two miles from the railroad, although seventeen farms were taken up by settlers during the month of August.

Sulphur refined by the heat of volcanoes is the latest problem confronting the customs officials of the Treasury Department. For years sulphur from Japan, because it was naturally refined by two volcanoes, was admitted free of duty. Recently the policy was changed and a tariff of \$4 a ton was imposed. A letter was recently received calling attention of the Department to the fact that sulphur produced by Mt. Etna, Sicily, came in free of duty, and suggested that it should be subject to the same tariff rate as the Japanese product.

An answer was sent to the effect that as a stream of molten lava, deep and deadly hot, was flowing down the sides of Mt. Etna it seemed inadvisable to send a special agent to that place at the present time. The writer of the letter was assured, however, that when things cooled down an investigation would be made of Sicilian sulphur.

Wary of the beaten tracks abroad a constantly increasing number of American and English tourists are seeking new sights and experiences in the northern countries of Europe. In giving his observations in an official report, U. S. Consul W. C. Hamm, stationed at Hull, England, says:

"Improvements have been made in the landing stages of Hull, the increased number of railroad trains in connection with the North Sea boats and the addition of fast steamers have caused the tourists and the general public to be quick to respond. 'Norway, Sweden and Finland, with their fine scenery and interesting people, are becoming increasingly popular with American and English holiday makers. The present season promises to surpass all others in the number visiting these countries.

"Norway's charms for holiday seekers are drawing an increasing number of tourists year after year. Sweden also has many attractive features for the same class of travelers. But Finland, with its thousand lakes, is the newest country in the tourist line. If the tide of travel there continues to grow in value Finland will soon be on the beaten track. One of the attractions of the Finland steamers sailing from this port is that they are under Finnish captains, and that the crew and staff and the fare are also Finnish, so that from the very moment the steamer has cast off its moorings at the Hull dock those on board can enter on the novel experience of life abroad."

Coming Wedding

Cards are out for the marriage of Miss Cornelia Parsons of Claremont to Mr. R. E. Spurgeon of Santa Ana, on Monday, October 9, at Claremont. There have long been rumors current of the approaching nuptials of Mr. Spurgeon, and the present announcement verifies these most happily.

Much interest attaches to the forthcoming event as the groom-to-be is one of the best known and most popular young men of Santa Ana, belonging to the family of William H. Spurgeon, the well known founder of this city.

WHITE RIBBONERS MEET

Talked of Useful Department—Plan Interesting Future Meetings

The W.C.T.U. held a very enthusiastic meeting yesterday afternoon at the home of Mrs. George Heil, 407 West First street. The parlors were filled with members and friends of the union.

Mrs. Frank Heil led the devotional service.

"Scientific Temperance Instruction in Our Public Schools" was the subject for discussion. The union had for its guests Mrs. Maggie Rawlings and Mrs. Shatto of Tustin. Mrs. Rawlings is superintendent of scientific temperance instruction of Orange county, and gave a splendid address on the subject. Plans of work in this department were discussed.

Mrs. Shatto spoke on the subject of temperance, a general discussion following. Mrs. Johnson was appointed superintendent of Santa Ana Union to succeed Mrs. Norman. Miss Lela Heil favored the union with a beautiful piano solo. Mrs. Belle Rogers led in a suffrage drill in which twelve ladies took part. This drill is for the purpose of giving information on the subject, and was exceedingly interesting. An all-day suffrage meeting will be held in Huntington Beach on Saturday, Sept. 30, to which all interested are invited. The regular annual banquet given by the W.C.T.U. to the city teachers and to the members of the school board will be held on Friday evening, Nov. 10. Committees and all arrangements will be announced later.

Mrs. Frank McElree, county superintendent of mothers' meetings, announced a "mother's picnic," to be held in Birch Park on Tuesday, Oct. 17. This will be an all-day meeting and will include all of the unions of the county. The following is the committee from Santa Ana Union, who will assist Mrs. McElree: Music, Mrs. Winbigger and Mrs. Clay Kellogg; table committee, Mrs. Lea Warren, Mrs. W. B. "It Pours" for the Delta Alphas

They can't help it. Neither could Methuselah. Old age will steal on apace, and several of the Delta Alphas were forced to "put away childish things" and become "grown-ups" long ago. But nobody can deny that they have had good times and their showers.

Yesterday evening, seventeen of the class and their teacher met at Miss Mattie Smith's, held their monthly business meeting, and had a jolly good time. After refreshments were passed, two of their number were as-

tonished, amazed and delighted to find themselves each the recipient of a good-sized box of bundles. They arranged themselves on the floor facing each other, like the cherubim on the ark, and lost no time in getting down to business.

When Olive Connor got her shower, those two girls decided they needed one, too. They couldn't afford a trip to India, but wondered if a trip to Watts might not accomplish their purpose, and so announced to their classmates their intention of going on a sight-seeing excursion to that delightful little city. Last night they got their reward. Everything one could think of was bestowed upon them, even down to a man for one girl and three for the other. Judging from the contents of those boxes, the ten-cent stores must have done a thriving business.

The favored girls feel it is certainly up to them now to go to Watts. When they return, Cora Winter and the man bestowed on her will doubtless take up their residence in Santa Ana. Frances Johnston doesn't know what to do with so many men, but it will probably end in a trip of four to Utah.

EBELL SOCIETY

Opening Meeting of Season to Be Marked By Talk on "Melting Pot"

The Ebell Society will hold its opening meeting for the season this coming Saturday afternoon, Sept. 30.

Mr. Alfred H. Brown, M. A., of the Brooklyn Institute of Art and Science, will talk before the Ebell on "The Melting Pot" by Zangwill. Members who did not use all their guest privileges for the past season are entitled to take a guest to this meeting on their membership card of last year.

Musical Society Elects

The Philharmonic Society reconvened for the season of 1911-12, the meeting being held in the Congregational church. Percy Richards and Allan A. Revell were re-elected director and accompanist, respectively. A. J. Crookshank was re-elected president; D. Eymann Huff, vice president; and Harry Warner, secretary and treasurer. The executive committee includes Raymond Miles, Mrs. D. E. Huff, Miss Ely and Harry Warner. While no definite course was decided upon as to productions for the season, a comic opera for the initial performance was favored.

Pleasant Affair

The Woodmen of the World held an open meeting last night, with dancing and luncheon. Organizer Kennedy of San Diego was present. A number of entertaining talks were given.

Personals

W. L. Grant of 522 East Pine street, left this morning for a visit in Los Angeles and Pasadena.

Rev. and Mrs. J. A. Stevenson went to Los Angeles this morning. Mr. Stevenson is in attendance at the Presbytery.

Mrs. Nellie White and her son, Stanley, were here from Brookings, South Dakota, and are with Mrs. White's son, Robert White, of North C. streets. It is hoped by the Brookingsites that the new arrivals will conclude to remain here, permanently.

T. F. Doyle, manager of the Yoch hotel at Laguna Beach, passed through here this morning on his way to Los Angeles.

Deputy Game Warden Walter K. Robinson was a visitor to Los Angeles this morning.

Mrs. Cora Cavins made a business trip to the city this morning.

Mrs. H. C. Nelson spent today in Los Angeles.

Mrs. J. I. Clark was a morning visitor to the Angel City.

A NARROW ESCAPE ON NORTH MAIN STREET

—Yesterday afternoon about 3:30 Mrs. Smith, a new arrival in Santa Ana started to walk down town and stopped to speak to her neighbor, Mrs. Jones and made the remark that she had to go and get some school books. Mr. Jones asked her where she was going to get them.

"Why, Mr. Jones," she says, "what a question. Where would a person naturally go for school books, to a grocery store?"

"Well," says he, "that depends." Now Mr. Jones is a little peculiar but he has a mighty level head and he says: "Listen to me Mrs. Smith. I have been in Santa Ana going on five years. The first year our children were at in the grammar school and I had to get new books all around. (Missouri books are no good here). The next year Sally, our oldest, went to High School and it cost me \$7.85 for her books. I thought that was high and took the list to Los Angeles just to get their prices and could have gotten the lot for \$6.25. Some of us got after Thacker to put in books. 'Why,' he says, 'I have a crockery store. Who would ever think of going to a crockery store for school books?' But we finally persuaded him to do it. Then he said he might as well go after the contract for city school supplies, too, but gracious he got left on that but he put in the books just the same. Well, the next year John Jacobs over here, started to high school and had to get the same list of books that Sally got and Thacker's price was only \$6.10. His way of doing business got out among the students and he did a nice business. Well, the next year he put in a larger stock and went after the contract again and landed it this time. Did he make good? Just ask anybody connected with the schools. Well, he did a rushing business all along the line. This year he landed the contract again, had a walk over as the boy said. I went with the children for their books yesterday and judging by the crowd you would think it was the proper thing to do to go to a crockery store for books."

"Well," says Mrs. Smith, "that sounds good. We got our china there and I got some framing done there, but of course never thought of going to a crockery store for school books, but of course if Thacker has them that's the place," and she went with the crowd.

CAPTAIN OF TEAM IS ON CRUTCHES

Los Angeles Tribune: Capt. Jim Smart, the husky Occidental tackle, of Santa Ana, is at school this week on crutches as the result of his accident Saturday. Smart will be in the game again within ten days, and says his foot will not trouble him at all this season. "I am glad the injury came as early in the season as it did," said Smart, "and that it was only a torn ligament instead of a broken bone. I will be in a suit next week and going as good as ever in two weeks' time."

To Walnut Growers
The Walnut Growers' Association packing house and office is now open for business.

We invite all growers of walnuts who are not members of the association to call at the office, investigate our manner of doing business and join the association.

By so doing they will strengthen the association and thereby secure the best possible price for their walnuts.

18 MISSIONARIES WILL SPEAK THURSDAY NIGHT

An outgoing missionary party numbering eleven will be in Santa Ana on Thursday, Sept. 28. They will speak in the First Baptist church at 2:30 and 7:30 o'clock. They come here under the guidance of Rev. Rider, secretary of the Pacific District for the Baptist Foreign Missionary Society. Report from Redlands says a rare treat is in store for those who hear them.

Following are the names and fields to which they are now on their way: Rev. and Mrs. D. C. Graham, Rev. and Mrs. J. C. Jensen, Mr. and Mrs. F. N. Smith, Dr. and Mrs. C. E. Tompkins, Miss Irene M. Chambers, Mrs. F. P. Page, West China; Rev. and Mrs. C. L. Bromley and Miss Martha Woods, East China; Miss Maud E. Cruff, Miss Louise Campbell and Mrs. R. E. Worley, South China; Miss Margaret F. Hilliard, Japan; Miss Mary D. Jesse, Sendai, Japan.

MEXICAN TROOPS TO PERMANENTLY OCCUPY TIA JUANA

TIA JUANA, Lower California, Sept. 27.—Two hundred and fifty men of the Twentieth fifth battalion, Mexican army, arrived in Tia Juana yesterday morning from Ensenada to relieve the troops of the Eighth, Seventeenth and Fifa Norte battalions, which have held Tia Juana since the rebels were driven out of Lower California. Families of the soldiers accompanied them on their long march from Ensenada. The troops will remain in Tia Juana permanently, it is believed, as plans for the construction of barracks have been announced.

The Mexican gunboat Guerrero was due yesterday afternoon from Ensenada for coal and supplies. The Guerrero brought many of the soldiers who now form the garrisons of Lower California to Ensenada from Manzanillo and Guaymas.

"HOPE OF THE BLACK RACE" GOES BROKE, IN "OLE LUNNON"

LONDON, Sept. 27.—Jack Johnson is broke. The heavyweight champion, who, after he had whipped Jeffries, quit the ring at Reno a little more than a year ago with \$100,000 "to the good" and who has been making money nearly ever since, apparently could not stand prosperity and is now facing the problem of "financial straits."

It is admitted that the negro is broke and this is the main reason of his great anxiety that there be no interference in his fight with Bombardier Wells next week.

Johnson's trainer, Cutler, has told "Tex" Rickard and others that Johnson was forced to pawn his motorcar and his diamonds recently before leaving Paris to come to London for the fight.

Johnson is reduced to such a penurious condition that he is unable to pay his manager, trainer, valet, secretary or his wife's maid. Also, it is known that he could only buy them third class tickets from Paris to London and travel second class with his wife instead of first class as is customary.

KJLICK CUTS RACE GAME FOR \$1000—IS SOON TO MARRY

DETROIT, Mich., Sept. 27.—In consideration of a \$1000 bill pulled from a big roll by Henry Ford this morning, Frank Kulick, the famous auto racer, will quit the game for good. The track was muddy and dangerous, but Kulick had spun off a mile in .50 flat. Ford stepped up with the yellow back and said: "Here, Frank, take this and quit the game. When a man goes a mile on this track or on any other track in 50 seconds it is too fast." Kulick took the bill and promised to quit. He is to be married in two weeks.

AMUSEMENTS

At the Mirror

Lively music, dancing and singing. Kute Kids, a funny play and clever players, constitute the "Hotel St. Reckless," as given by the Mirror Company at the Mirror Theater, Monday, Tuesday and Wednesday nights. The play is by Mr. L. Everett. There is not a dull moment from start to finish. There is a plot, but not enough to tire the audience, while every line spoken has some bearing on the central thought of the play.

The comedians spring all new and up-to-date jokes and during it all dainty costumed maidens, flit here and there.

The honors of the evening are shared by players and chorus alike. Mr. Russell and Mr. Fitzsimmons in the title roles displayed the high-class ability of polished comedians. This week's show introduces Mr. Fitzsimmons as a comedian while he handles very nicely. Mr. Russell as one of the Hebrew proprietors of the hotel displays his usual talent.

Of the women, Miss Edwards scored in her part of the actress while Miss Mortimer gave a character that was pleasing and interesting.

Miss Dot Bernard showed unusual ability as a male impersonator playing the bellboy of the Hotel St. Reckless.

The entire musical program was excellent, especially the finale, when a big American flag is draped from the top of the stage. The entire show is high class and very pleasing.

San Francisco Earthquake
Mr. L. J. Wertheimer, who is on a world tour with his celebrated film, will lecture from the stage at the Mirror Theater as the reel is run off tonight. He wishes to correct a rumor circulated here to the effect that this picture is a "posed" picture and not the real thing.

In answer he states that the reel is backed by the Thos. A. Edison Co., which is "nuf ced."

LONDON, Sept. 27.—The Bombardier Wells-Jack Johnson fight, so far as London is concerned, is off. Judge Bush today enjoined both promoters and fighters from engaging in a world's heavyweight championship battle.

Banks and Lost or Destroyed Bills

Bank bills are merely printed promises of the bank or government issuing them, to pay the face value of the bill or note, on demand, in coin of the realm. If a bank bill, or bank note as it might well be called, should be destroyed, the holder of the destroyed bill is the loser, and the bank the gainer by reason of the fact that it would be relieved of the obligation to make good its promise to pay the face value of a note which no longer exists.

BEAN GROWERS ARE USING LARGER SACKS

Oxnard Courier: As the result of the water shipment of lima beans, sacks this year are being used which are both larger and heavier than in previous seasons. The average sack has heretofore been a holder of from 80 to 85 pounds of limas. This year, however, those shipping by water are increasing the capacity ten pounds and even more in some instances.

This is somewhat responsible for rumors of many short crops, which are actually larger than usual, as the number of bags in these instances are less but the holding capacity greater. Those in a position to know, are becoming convinced as reports from the fields are made that the average yield per acre is going to be less this season than in previous years. The increase in acreage will, however, make the total yield larger than in any other season, many believe.

The dropping off in yield at many ranches is laid to the weather conditions.

Ranchers are finding larger and tougher bags much more convenient for water shipments and it is expected that the use of this variety of sacks will steadily increase among growers.

Cutler a Winner

T. J. Cutler of Fallon, Nev., formerly of Santa Ana, has won distinction as a sugar beet grower. He took a prize in a contest, and as premium he has a silver cup and his choice of a \$60 cultivator or beet drill.

THE WORLD IS PLEASURE MAD

PASTOR RUSSELL DECLARES

Creed Idols Misrepresent the Almighty. The Masses Discern This, Hence the Small Church Attendance and Small Collections—The Crowds Substitute Pleasure, Crowd Theaters and Ball Grounds—The True Cause—The Remedy.

PASTOR RUSSELL

Jersey City, N. J., Sept. 24th.—Rain or shine, hot or cold, large crowds attend Pastor Russell's preaching. His hearers represent all denominations. He has a large heart, full of love for fellow-Christians of all denominations, but declares that he has no sympathy for the creeds which for so long a time have blinded and ensnared Christian people. Pastor Russell says he is laboring for Christian union when smashing the creed fences which have so long separated the Lord's sheep. He declares that the Bible is misunderstood and consequently misrepresented in the house of his friends. He surely is stirring up infidels as well as Christians to a fresh study of the Bible. His sermons, through the public press, are undoubtedly reaching millions who are not churchgoers.

Pastor Russell's text for today was: "Lovers of pleasures more than lovers of God; having a form of godliness, but denying the power thereof" (1 Timothy iii, 15). He declared that his text relates to the present time; that the world is going amiss; that theaters, automobiles, ball games and seaside resorts are absorbing the spare time, the spare money and heart-sympathy of the masses.

The difficulty is that the people have been under superstition and idolatry, and as they are now awakening, we see the tendency toward revision of feeling. All the creeds of Christendom are repulsive. While each has some elements of truth, taken as a whole, they are all false representations of the Divine character and Plan.

Deserting the Creed Idols. Gradually, the light of the new day, earth's jubilee, is dawning. The dawning light shows us something of the errors of the past, and the delusive nightmares are disappearing, likewise our reverence for our creed idols, which have become abhorrent to all. The creeds are no longer believed; their superstitious errors fail to control the masses, hence slim attendance at the churches, small collections, etc. The creeds are now sustained merely by the money of the wealthy, which our text declares is merely a manifestation of a form of godliness, without its power. The wealthy and educated upholders of the creed idols and their temples consist of the unbelievers, Higher Critics, Evolutionists, who have no more use for the Bible than for the creed.

The needful thing is to give the people the true Gospel—to restore to them the Bible—to show them clearly that it has been totally misrepresented by all the idol creeds—that the true presentation of the Divine character is sublimely grand! But alas! who shall tell the people these things? The ministers of Christendom are in a deplorable condition. When cross-questioned they must admit that they have not believed their creeds for years, although outwardly they have been priests to these creed idols, and have offered incense before them weekly. The people, not unwisely, have no confidence in them.

Hunger For the True Gospel. Alas! that it must be said—but we believe the estimate is not exaggerated which claims that three-fourths of all the educated ministers of Christendom are Higher Critics, infidels, total unbelievers in the inspiration of the Bible. How could these become leaders or instructors of the people in respect to Divine things?

In June last I spoke at the Boston Theatre, having a capacity of thirty-six hundred seats, all filled, and with four hundred men on the platform behind me, while many stood, and I was told that crowds were turned from the doors. The editor of a religious paper, who was present, came to me the following day and asked, "How do you account for the large crowds which attend your services, while so many of our large churches are comparatively empty—some of our ablest speakers addressing twenty, forty or fifty hearers?"

I replied, "I believe the Prophet explains the situation, 'There shall be a famine in the land; not a famine for bread nor a famine for water, but a famine for the hearing of the Word of the Lord' (Amos viii, 11). The people are hungry. They have fully rejected the creeds of the past, and they have nothing soul-satisfying instead. They are hungry; I am feeding them the Word of God and demonstrating to them that the Bible is the most wonderful Book in the whole world, and that the only difficulty has been that we have not understood it in its own light. We have read it through the colored spectacles of our idol creeds." Pastor Russell urged his hearers to confidence in God and a fresh study of the Bible.

LOS ANGELES MARKET

Several changes of note were made. Quotations on fresh eggs advanced 2 cents, and potatoes declined to \$1.65. The low level on Highlands was \$1.30 a hundredweight. There were no other changes of consequence. Receipts were liberal on butter, but the receipts of other dairy products were light, which had a tendency to strengthen the market.

A two-cent advance made in eggs was not unlooked for, the market has been fluctuating for several weeks due to the unsettled condition of the egg situation. Receipts have been so light that dealers have been unable to anywhere near meet the demand. The local market has been unable to draw upon the outside to any extent. Northern eggs had been a good source of supply up to several months ago, but the scarcity of eggs there has strengthened the market more than locally. Yesterday strictly first-class eggs on the San Francisco Exchange were quoted at 43 cents. Arrivals were 66 cases.

The decline in potatoes was due to some of the dealers having a surplus on hand, and a desire to keep the stock moving for fear of spoilage. Receipts were 126 sacks.

With the exception of grapes and apples receipts of fruit were light. Prices on good variety of grapes were well sustained, there was a good outlet for the Tokays and Muscats.

Green vegetables were in keeping with the demand, and the market ruled firm on most vegetables.

Arrivals of butter were 49,454 pounds. The market was firm.

The cheese market ruled firm to steady. The call was for Edam and Swiss. Receipts were 363 pounds.

Onions were in liberal receipt, but the market showed little activity. Receipts were 329 sacks.

Bean receipts were 829 sacks. The market was weak.

Sweet potato arrivals were 67 sacks.

AT THE COURT HOUSE

PROBATION IS WHITE'S PLEA

District Attorney West Thinks Too Much of It Is Bad Policy

After a jury had been summoned to try him on a charge of horse-stealing, Claude E. White this morning changed his plea from not guilty to guilty, and asked Judge Clarke of Ventura, who was on the local superior bench, to allow him to go on probation.

District Attorney West opposed probation. In fact, the district attorney is of the opinion that too much probation is as bad policy as no probation at all.

Three witnesses were placed upon the stand and examined. White admitted stealing the rig, which belonged to Charles Linebarger of Fullerton. The rig was taken at Anaheim and was driven to Corona, where White tried to sell it. His excuse was that he was drinking.

White's mother, Mrs. Nina B. Croft, testified that it was because she was in trouble that her son had taken to drink. She was arrested for immorality a few days before White stole the rig.

Value

To be "on the square" is so essential in our life that only those who practice it can hope to win out. Squareness means friendship between a store and its customers.

ON this rock of honesty has our growing business been built. You find sixteen ounces to the pound or four quarts to the peck, in your purchase—the quality and value of our groceries are as sure as the rising sun. The high standard of our customers is a safe guide to our methods.

It is nice to know with whom you deal isn't it? We are always the same—the Square Deal Grocery.

For weight, measure, value and quality this store cannot be beaten in this town.

NEW TEACHER TO BE ADDED
Crowded Classes Call for Adjustments By the City School Board

At a meeting of the City Board of Education last night, City Superintendent Cranston was authorized to employ another teacher for the high school. A number of classes are crowded, and in order to get the best results another teacher will be added to the faculty.

It was decided that arrangements should be made for two teachers for the first grade at First Street School. There are now sixty-nine pupils registered in that class, and thirty-five is considered a big class for one teacher to handle. The school authorities hope to be able to get a room in the vicinity of the school so that the class may be divided, which will necessitate the addition of a teacher. It is possible that a teacher will be transferred to that school from some of the schools that are not crowded.

Notice of the Annual Meeting of the Tustin Lemon Association
The annual meeting of the stockholders of the Tustin Lemon Association will be held on the tenth day of October, 1911, at 2 o'clock in the afternoon, at the Association's office, near Tustin, for the purposes of electing a board of directors and for the transaction of such other business as may properly come before the meeting.

Trial Is Set
The trial of Stoke Neal, charged with selling liquor, has been set for 10 o'clock September 28. There are three charges against Neal, complaints being sworn to by J. B. Ramsey, G. C. Law and Constable Squires. Neal was arrested yesterday morning.

Cozad Asserts that he sold a stock of implements to Wickersheim for \$4750, and in the agreement Wickersheim agreed to pay taxes on property concerned. Cozad alleges that the taxes, \$72.05, were not paid and Wickersheim failed to deliver one ton of hay worth \$10. Judgment for \$82.05 is asked by Cozad.

Wickersheim in reply asks judgment for \$83.05, which amount he says was proved short on the inventory.

Work of Year at Church Splendid
Orange News: Rev. W. W. Cookman, pastor of the First Methodist Episcopal church of this city, will leave today for the session of the annual conference of Southern California Methodism, which convenes in Los Angeles this week. He will carry with him a fine report of the year's work. The membership of the church now numbers 370, with 24 probationers. The Sunday school has an enrollment of 400, with an average attendance of over 300. A large circular gallery has recently been installed in the Sunday school auditorium, providing nine additional class rooms for the growing school. The conference year closes with every department of the church in a prosperous condition. All current obligations have been fully met, and the sum of \$1000 from all sources has been given to the general benevolences, the largest offering in the history of the church.

Handsome Present, in recognition of the services of the firemen at the Ainsworth Lumber Company fire, was delivered to the firemen today. It was a check for \$100, signed by L. Ainsworth, the senior member of the firm, whose mill was destroyed.

The check was presented by Mrs. L. Ainsworth to Charles Heim, a member of the company, with the injunction that it was to be "for the boys." Heim has a plaster on his neck, where the heat blistered during the fire, but the little yellow bank plaster drew out any lingering fever as he hid him abroad to spread the news. The firemen requested that their thanks be conveyed to Mr. and Mrs. Ainsworth for their generosity toward the company, and the assurances given that the compliment to their work is greatly appreciated.

—There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials.

IS OLDEST OF THE ALUMNI

Dr. A. H. Rowan, Pioneer Physician, Has an Article in Medical Journal

The Lancet-Clinic, a national weekly journal of medicine and surgery, published at Cincinnati, for Sept 16 has a special article of three pages on "Reminiscences of the Early Days of the Medical College of Ohio." The article is written by Dr. A. H. Rowan, who lives at 107 West Fourth street, Santa Ana, and who bears the distinction of being the oldest living alumnus of the Ohio Medical College. Dr. Rowan is now in his sixtieth year, and his means are practically nil.

The Lancet-Clinic makes the suggestion that the Cincinnati chapter of the Ohio-Miami Medical College remember the old doctor in a substantial manner.

Dr. Rowan was Santa Ana's pioneer physician. When he first came here the entire valley was dry and for miles the surface was blackened where a fire had swept through the mustard. It bore a most disheartening aspect, and the wildest dreams of the doctor could not have pictured the transformation that has taken place here since that first visit.

The following is taken from Dr. Rowan's article, telling of his California experiences:
"Hundreds were afoot, many on mules, across the Isthmus to Panama. Our crowd took the Chagres river route to Georgia, in boats poled upstream by natives, for the Chagres is a shallow, swift-running stream. We were among the first to arrive at Panama, traveling a part of the way on foot, our baggage packed on mules. Panama is embowered among enchanting coconut groves, but the town looked old enough to have been built in the medieval ages.

"We had to wait at Panama ten days for a ship bound for San Francisco, more than three thousand miles distant, up the coast to Eldorado. That old steamship (another rattler) was commanded by Captain Herndon of the United States navy. The ship was named Isthmus, and had been used by General Scott when he bombarded Vera Cruz in the Mexican War with the United States. We were three weeks making the journey from Panama to San Francisco, and but for the great skill of Herndon who knew the coast so well, we would probably never have reached San Francisco in that miserable pretense of a ship.

"We stayed in the mines a year and a half. Big game, big mountains and big trees held a glamour of romance that was irresistible in those awful solitudes. We stayed three months charmed with the scenery, pure air and water, big rocks and good health. We had struck our paradise. Every thing was lovely, and a new enthusiasm and activity gave us new life that we will ever hold in dear remembrance. From the city to the wilderness was a most welcome change to us, and made us feel like we could stay there the balance of our lives.

"We returned to Ohio, where we practiced till 1856, at Lockport, Vigo County, Ind., near Terre Haute, where we had a relapse of the California fever, and returned to California. We were in the great railroad accident crossing the Isthmus, May 6, 1856. Fifty were killed and 175 wounded. The writer of this escaped by jumping out of the car window into a pool of water, by the side of the track. Nine cars telescoped into kindling wood. It was a tragedy that defies description. When we try to recall the scenes of that ill-fated train an indescribable horror overwhelms us, and we are glad to relegate it into oblivion.

and we are glad to relegate it into oblivion.

"On my second visit to California I located in Yolo County, where I practiced medicine three years. Then I came to Los Angeles county, and located at Santa Ana, where I practiced down to 1901. Then I went to San Juan Capistrano, where I practiced among the Mexicans for several years, till I had to quit on account of old age and infirmities."

ARE BUILDING FIVE BRIDGE

George Kuechel Is Superintending Construction on South Glassell

GRANGE, Sept. 27.—Contractor George Kuechel is busy at superintending the building of a new \$5000 bridge across the Santiago creek on South Glassell street. Kuechel is a first class builder, and it goes without saying that he is going to put up a first class bridge for the county, and one that will do credit to Supervisor Struck, who is much interested in it.

The road will be blocked somewhat after tomorrow, September 28, for about two months. There will be passage over the river bottom for light rigs, but it will be better for all heavy traffic and automobiles to avoid tackling the crossing.

The bridge is to be 194 feet long, of four spans of forty-eight feet and ten inches each resting on three sets of concrete piers that will measure forty inches in diameter. There will be a fill of 350 feet on the north end.

Kuechel has been gathering heavy rock along the creek bed for use in constructing this bridge.
Low Moon Safe
Lew Moon, a Chinese laborer who has been employed by Charles O. Field, was in the clutches of the law for awhile. Immigration Inspector Harry Blee was informed by an Anaheim Chink, who wanted to get Lew into trouble that Lew was here illegally. Blee picked Lew up Monday. Lew declared he had a certificate, and Field also stated that the certificate was among Field's papers in a safety deposit box in an Orange bank. Blee kept Lew in charge until Field got the papers, which proved that Lew was here legally. Lew Moon has been in this vicinity for a quarter of a century.

WHY HESITATE?

An Offer That Involves No Risk for Those Who Accept It

We are so positive our remedy will completely relieve constipation, no matter how chronic it may be, that we offer to furnish it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They will positively overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Three sizes, 10c, 25c and 50c. Sold only at our store—The Rexall Store, Dean's Drug Store, 104 West Fourth St.
